SCOTT PUBLICATIONS

Any or all of the following will be sent without charge or obligation to anyone who may find them of interest

Lawn Making and Maintenance Sixty pages of specific information that will be especially helpful in the building or care of large lawn areas. A complete discussion of all problems involved.

Bent Lawns A treatise on the planting and maintenance of Bent turf. The two methods of planting are fully described. This booklet also contains illustrations of Creeping Bent lawns in their natural color.

Lawns Discussion of the essential things in lawn making. This booklet can be read in thirty minutes and will give the reader a clear conception of what it takes to make and keep a good lawn.

Lawn Care is published five times yearly. The complete series with pasteboard cover will be sent to anyone for actual mailing cost of 10c. An attractive imitation leather ring binder containing the full set of bulletins is supplied at cost price of 50c postage paid.

Converting to Creeping Bent A small folder containing four suggestions for using Bent in an established lawn

If the solution to your particular lawn problem is not found in any of our publications we invite you to tell us all about it in a letter.
