

**GOLF COURSE SUPERINTENDENT'S ASSOCIATION
OF NEW ENGLAND**

N - E - W - S - L - E - T - T - E - R

JANUARY 1956

The Annual Meeting and dinner dance of the Association was a huge success. A very rainy evening failed to halt the attendance of 90 congenial members, their wives and guests.

The fine food, music, and entertainment promoted a very festive spirit and many unlimbered long enough to show they could still teach some of the youngsters how to waltz and fox trot.

The ladies' presence in all their finery made the occasion a memorable one.

Door prizes for the ladies went to the following:

Mrs. John Brock, Mrs. Ned Curran, Mrs. Pat Tameo, Miss Terry DiToro, and Mrs. Paul O'Leary.

At the business meeting the following slate of officers was elected for the 1956 season:

<i>President</i>	Michael J. O'Grady
<i>1st Vice-President</i>	Manuel Francis
<i>2nd Vice-President</i>	Albert Allen
<i>3rd Vice-President</i>	N. J. Sperandio
<i>Secretary</i>	William Ash
<i>Treasurer</i>	Arthur Cody
<i>Educational Committee Chairman</i>	Ray Brigham
<i>Golf Committee Chairman</i>	Joseph Butler
<i>Auditors</i>	George Rommell John KIELTY
<i>Trustee — 3 years</i>	Daniel Silva

The application for associate membership of Walter C. Greus was read and tabled until next meeting.

Our worthy Editor is enjoying a short vacation in Florida and writes that it is so cold down there that he has been unable to get any inspira-

tion for some suitable "land of sunshine" poetry. This explains the absence of some appropriate verse in this issue. No doubt Homer is thinking of a poem that, if memory serves me correctly, contains the lines, "Oh, it's home again, home again for me."

Tony Sperandio, Chairman of the Educational Committee submits the following program for the February meeting.

Date — Monday, February 13th
Place — Waltham Field Station
Time — Luncheon — 12:00 Noon
Program — By Dupont Chemical Company

Robert Miller will speak on "Turf Disease and Control."

William Boyd will speak on "Weed Control," an illustrated talk on use of Ammote, 2-4-D and 2-4-5 T.

George Stewart will introduce the new Dupont product Uramite, and will show slides demonstrating its use and some of the trial results.

Tony says:
DO NOT FAIL TO ATTEND THE NEXT MEETING.

REMEMBER: — This meeting was changed from February 6th to February 13th in order not to conflict with the National Turf Conference and Show; it's going to be that important that you be there.

PHILIP I. CASSIDY,
Business Manager
