## Max Makes It Happen

Max Mierzwa remembers...

"My first day day on the job my boss handed me a scythe, pointed to the rough and said, 'cut it.' I was making 90 cents and hour at the time. So, all of a sudden, I asked myself what in the heck I was doing there."

Max Mierzwa recalls...

"One of the first jobs I had on the golf course was mowing greens. I must have been good at it. I'd take a mower and cut 18 greens in one day. Of course, I finished in the dark, but I made it.

Max Mierzwa. The year was 1946 and he had just returned from a hitch in the U.S. Marine Corps where he had established a sound background in communications.

"I could have taken a job with the telephone company," Max mused the other day from his office at the Chicopee Country Club. "If I had, I'd be retired now. But what would I have? A nice fat pension and a fatter stomach. So, I'm still on the job. However, I wouldn't trade it for anything. I have golf. I have fine people."

Mierzwa, now 58 going on 40, has had only two head superintendent's positions in a career that spans 36 years.

After learning the ropes from Paul Bigos, Charlie Keefe and Larry Graham at the Springfield Country Club, he took over the top job there for 18 years or until he answered the call from Chicopee, a municipal layout, in 1966. He's been there ever since and still embraces the energy and enthusiasm of a raw rookie.

Evidence of his expertise glows in the reputation of

Chicopee as one of the finest municipal golf courses in the Northeast. Its top-notch condition is the talk of the town and points North, East, South and West.

"We must be doing something right," Max cracked. "Otherwise, we wouldn't be pushing 350 golfers around here every day. That's not bad with a work crew of five and myself. No, make that four. We're still without an automatic irrigation system, so I have one man exclusively for working that job."

Which is all the more amazing about Max's accomplishments. Even in the height of the season, he doesn't hire a single part-time employee. Obviously, he digs in up to his elbows, but he doesn't mind it a bit.'

'I know we're supposed to be supervisors," he said. "And I don't fault anyone who can operate that way. But I have to make things work with what they give me. Sometimes, it's a struggle but who says life has to be easy?

As a matter of fact, Max relishes the fact that he shunned the telephone company and entered the superintendent's ranks.

'I can't think of anything I'd rather do," he told. "Mostly it's because of the people I've met through golf and the friendships I've made within the profession. They are the real products of my association with the game. Whatever I've achieved it's because I've had the opportunity to be with genuine people."

Max is a GCSANE booster all the way. He's served as a director and become a fixture at meetings. He's proud to say that he seldom misses a gathering of his peers.

"And I really like the look of the association as it now stands and operates," he remarked. "We have young people with new and fresh ideas. I know some of the oldtimers shudder a little at some of the changes, but that's what the whole world is all about. It's forever changing and you have to get in step with it."

Max also endorses the municipal course superintend-

"I have five commissioners that I answer to," he explained. "Sure, there are golfers who think they're my boss, but we all have to live with that, too. I'm on civil service, building a pension, get holidays and vacation time. I only wish the National (Golf Course Superintendents Association of America) would do something to influence something like that in the private clubs."

Work at Chicopee is a seven-day tour for Max. However, he's allowed time to attend NEGCSA functions and, in a sense, is his own boss. He makes up his budget, presents it and usually comes away with what he's requested.

"It really is a wonderful setup for me," he concluded. "And, as I said before, I never stop meeting new people and gaining new friends. Believe me, it's not a case of being stuck here. I love it. We'll turn back \$100,00 to the city this year. Is that a success story or isn't it.

It sure is and simply follows the success story of one Max Mierzwa.

# Golf Course Superintendents Association

# Orville Clapper - The Gentle Giant

Golf usually numbers its contributors within the sport's immediate family.

Surely, it is indebted to the scores of playing professionals who helped bring its popularity to a peak, then a reevaluation of that plateau as witness the eight percent rise in play over the past year.

Obviously, there is a place in its history for the innovative golf course architects who have met the requirements of its participants with layounts that lend themselves to

the picturesque and the practical.

Most assuredly, golf course superintendents have been stalwarts in the growth of the game and the streamlining of its playing grounds. Never have the conditions of those grounds sparkled as they have in the last decade.

There even is a spot in the annals of the sport for its choniclers. Certain writers have dedicated themselves to trumpeting the joys playing golf generate and the thrills its

competitiors produce on the tournament scene.

And, then, there are the silent partners of golf's success story. They work hand in hand with supers every day in developing and distributing maintenance equipment, most of which has revolutionized the golf course conditioning

One of this unsung breed left us last March 18 when Orville Clapper died, four days after his 87th birthday.

"Orville Clapper," says patriarch Arthur Anderson, "was one of a kind. He could make a sale without blinking an eyelash which is testimony to his overwhelming personality. But he never pushed a product on the superintendent. He was a friend, first, a businessman afterward."

Clapper came from strong business and inventive bloodlines.

He was born in Missouri, raised on a Montana wheat ranch and brought up in an environment of strong, pioneer ingenuity. His father, John Samuel Clapper, founded the Toro Manufacturing Company and it was from this base that Orville built his reputation as a successful and respected businessman.

"I can't ever remember Orville approaching me with an idea that wouldn't benefit my operation in the end," notes retired super Phil Cassidy. "He was interested in our profession, not from just a sales standpoint but from a genuine feeling for and understanding of the many problems we faced. He would have considered himself a close friend

even if he'd sold me only one coupling."

Clapper moved East in 1991 where he formed a distribution partnership that serviced locales from Boston to Buffalo. Shortly thereafter, he started the New England Toro Company in Newton and remained as its president, then chairman of the board until he retired and sold it to Bob Scagnetti in 1972.

During those 53 years, Orville developed strong ties with individual superintendents and the New England As-

sociation of Golf Course Superintendents.

"He was always there with wisdom, advice and certain tangibles which new associations need," remarks former NEGCSA president Leon St. Pierre of Longmeadow. "He

#### NEWSLETTER CONTEST

We are having a contest for a name for our newsletter. Anyone wishing to enter, send your choice to me (address is on newsletter). Oh yes, the winning name will receive a dinner for two, compliments of GCSANE.

was a very special kind of person. Sure, he promoted his livelihood but never at anyone's expense. His input to the success of our profession in incalculable."

The relationship of Orville and his son, Sam, serves as a monument to the man's integrity and reputation.

"He was the last of self-made men," Sam characterizes his father. "There's no doubt that he was a champion salesman, but in achieving that status he always was a gentleman. I can't remember anyone saying an unkind word about dad. And, how he loved golf and the superintendents.

"Dad really appreciated what the super contributed to the game. In time of need, he was always there with assistance — whether it be physical or philosophical. Our relationship was father-son all the way. I caught it for 24 hours a day but I loved it. He just had a way of talking to

So, golf - especially those associated with it in the New England area ... owe a debt to this gentle man who was an awesome force in the business he represented, Orville Clapper. He was top of the line. We miss him. He holds a high place in our memories.

DIVOT DRIFT ..... Don't forget the Christmas party at Blue Hill on December 3rd. Remember to get your reservation in ..... Needham was in great shape. What made it even better was that I won ..... Golf Chairman Keg Murphy is looking to line up next years golf slate. Anyone wishing to be a host should notify Baldy ..... Paul Miller is working on an official GCSANE blazer. He may have one on display at Franklin. Be prepared to order if you wish .....

### New Water Logo **Established**

A nation-wide campaign has begun to remove the game of golf from an often-pictured villainous role within nature's water cycle. A logo has been adopted and will serve as a readily identifiable symbol of the beneficial role golf plays in the never-ending challenge to equitably distribute a finite water supply. This campaign effort is spearheaded by a Research Task Force, representing the National Gulf Association community.

According to G.C.S.A.A. Executive Director, James E. McLoughlin (spokesman for the Research Task Force,), "What we are trying to get across is that golf courses recycle water, whether it's by using effluent water or simply by filtering water from natural sources. The new water logo represents golf's initial effort to tell the public that it is not part of the water problem. It is part of the solution."

G.C.S.A.A. urges all members to give this new logo added exposure by requesting that it be run in your club newsletter with appropriate commentary. If your club is unable to reproduce the logo pictured above, you may contact G.C.S.A.A. Headquarters and one will be sent. Copy is also available for use with the logo, upon request. Questions may be directed to Jim McLoughlin at G.C.S.A.A. Headquarters.

### President's Message

First of all, let me take this opportunity to thank Ron Kirkman and the entire staff of the Needham Golf Club for hosting our November meeting. Everything was just great and the weather was beautiful.

Due to the shortness of daylight, the regular meeting was called off. We did however, have a quarum of directors to hold a directors meeting. Some topics of discussion were:

1. The President of GCSANE being elected to the Executive Committee of the M.G.A. I personally feel this is a giant step forward that can only strengthen the ever growing bond between the M.G.A. and our association.

2. A letter of thanks was received from Joe Troll in regards to our nominating him for the Distinguished Service Award to be presented in Atlanta at the GCSAA Convention. For all that Joe has done for the superintendent and the turf industry he truly deserves it.

3. Paul Miller discussed the possibility of purchasing blazers with the association logo.

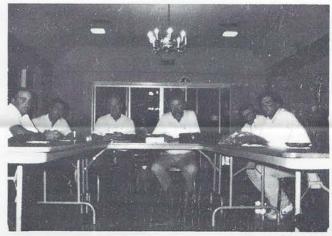

4. Doug Johnson, Newsletter chairman, is looking for new ideas as well as more input from the membership. The newsletter has been going well and should be receiving more support from all of us.

5. The M.G.A. always invites our association to their annual spring conference in March. We need three volunteers to speak on various topics. Anyone wishing to help please contact me. Brian Silva from the U.S.G.A. will be joining us on the program.

6. Congratulations to Kip Tyler and Billy Ziobro from Salem C.C. for winning the Pro-Supt. at Brae Burn. Bob Grant should take his hat off for a job well done.

Let's have a good turnout for the Franklin meeting. Don't forget to notify Gary (Bear). The annual Christmas party will be Dec. 3 at Blue Hill. For those of you who don't make it let me take this opportunity to wish you and yours a very merry Christmas.

Brian Cowan, CGCS

Directors meeting: the boys took time out for photo: (L-R) S. Murphy, P. Miller, P. Coste, B. Cowan, R. Kirkman and D. Johnson.

#### **NEW MEMBERS**

Congratulations to:

Les Kennedy Jr. of Belmont, Graham Justice of Norfolk, as associate members.
