## TO ALL A HAPPY AND PROSPEROUS NEW YEAR

With the new year comes several small projects which must be completed real early. Our first is the publication of our 1975 membership roster complete with current changes. We would like to put in this years edition every members name, home address, business address if different, club affiliation or firm, telephone number at home and at your business, your wife's name especially if she has or will ever attend parties in the fall. This booklet will go to the printer February 1st, therefore if your name is to be included, we suggest that you get this information and membership check immediately to our Secretary-Treasurer Frank Heminger at his address shown above. If you have already sent your membership check but did not make current changes in address, etc., it will be reprinted as in our 1974 directory. Anyone that has not paid 1975 dues will be considered "not current" and their name will not appear in this new 1975 roster. Please help us and act now.

The 45th Annual Michigan Turfgrass Conference will be held January 14-15, 1975 at Kellogg Center, Michigan State University, East Lansing. We urge all our members to attend. Should anyone require any additional information, we suggest that you contact Richard Anda, Department of Crop & Soils Science Department, M.S.U., East Lansing, Mi. 48823.

A new paperback book, "How To Control Lawn Diseases and Pests", has just been released and we recommend it very highly for any superintendent at the small price of \$2.95 delivered. It is available from Technical Publications Division, Dept. GM 974, 1014 Wyandotte St., Kansas City, Mo. 64105. There are 96 pages including 16 pages of full color, size 8½ x 11", complete with pictures in color of diseases, pests, charts, conversion methods from Metric to Anglo and other factors which a superintendent would use almost daily during the growing season. Send your check for \$2.95 and they will ship this needed book to you.

The 46th International Turfgrass G.C.S.A.A. Conference and Show, is February 16-21, 1975 at New Orleans, Louisiana. Don Stough and Tuck Tate are the delegates representing the Northern Mich. Turf Mgrs. Assn. We hope that many more can take in this wonderful conference and equipment show, called the "Greatest Show In Turf".

We have had numerous requests for the signs that Dave Longfield had at West Branch Country Club.

It is reproduced for your information and a good thing for your members to know. They might be more cooperative and tolerant!

### DID YOU KNOW THAT

A Fresh ball mark repaired by a player takes only  
5 SECONDS

A Freshly repaired ball mark will completely heal in  
24 HOURS

Left unrepaired for only 1 hour it requires  
15 DAYS

before ugly scar has satisfactorily healed.

Will you Please? ? ?
